Public Toilets are available at:

Public toilets are owned and run by NHDC.

What is the Community Toilet Scheme?

The Community Toilet Scheme allows the Council to work in partnership with local businesses to improve the provision of toilet facilities for the public. It provides cleaner, safer and more accessible toilets in Royston town centre.

How the scheme works:

The council and selected local businesses sign an agreement to allow the public to use their toilets during normal opening hours and without the need to make a purchase.

The Council will continue to find other businesses to expand the scheme and increase provision for everyone which includes businesses that are DDA compliant.

Window signs: Participating Community Toilet Scheme members display one of these in their windows to identify the type of facilities available.

Expected Standards and Inspection:

As part of the Community Toilet scheme agreement, the businesses agree to maintain the toilets in a clean and hygienic condition, with adequate toilet rolls, soap and hand driers/hand towels.

The Council will undertake regular inspections of all toilets in the scheme. In addition, there may be random "spot checks" at the Council's discretion.

Disclaimer:

Royston Town Council encourages all local businesses to comply with the Disability Discrimination Act.
